

A KITCHEN BRAINS BRAND

75LC MULTI-MONITOR

For Walk-in Coolers and Freezers

- ✓ **Saves Energy**
- ✓ **Protects Perishables**
- ✓ **Increases Operator Safety**
- ✓ **Lowers Maintenance Costs**

"Had there been no notification of the power loss from Kitchen Brains 75LC, the food in our kitchen would have been warmed for three days and spoiled"

-Kevin McCarthy, Director of Hendry County School Facilities, Maintenance, & Transportation

Compact design for **flush or surface mounting** in a single gang weatherproof enclosure

Built-in rechargeable battery with recharging circuitry

Readout in °F or °C with **automatic scale conversion**

Temperature Alarm protects against product loss

AC Failure Alarm protects against product loss in AC Failure

Patented Automatic Light Control saves energy and eliminates conventional light switches

Door Ajar Alarm saves energy, improves efficiency, reduces coil icing, lowers maintenance costs, and helps maintain product integrity & prevent loss

Panic Alarm Increases operator safety

Clean Condenser Reminder* as a preventive maintenance schedule

* Optional Feature
